## Environmental Friendly Policy of Milan Auto:

At Milan Auto, we recognize the urgent need to protect and preserve our environment for future generations. As a responsible dowel pin manufacturer, we are committed to minimizing our ecological footprint and adopting sustainable practices across our operations. Our Environmental Friendly Policy reflects our dedication to environmental stewardship and outlines our key principles:

- 1. Sustainable Manufacturing:** We are committed to implementing sustainable manufacturing processes that reduce energy consumption, water usage, and waste generation. By continually evaluating and optimizing our production methods, we strive to minimize the environmental impact of our operations.
- 2. Resource Conservation:** Milan Auto is dedicated to conserving natural resources. We aim to efficiently use raw materials and promote recycling wherever possible. We source materials responsibly, giving preference to eco-friendly and renewable resources, without compromising product quality.
- 3. Emission Reduction:** We actively work towards reducing greenhouse gas emissions and other pollutants associated with our activities. Our goal is to contribute to climate change mitigation by adopting cleaner technologies, promoting energy efficiency, and exploring renewable energy sources.
- 4. Waste Management:** We are committed to minimizing waste generation and adopting responsible waste management practices. Through recycling initiatives and proper disposal methods, we aim to divert waste from landfills and promote a circular economy.
- 5. Compliance and Legal Requirements:** Milan Auto adheres to all relevant environmental laws, regulations, and standards. We continuously monitor changes in environmental legislation and industry best practices to ensure ongoing compliance.
- 6. Employee Awareness and Training:** We believe that fostering environmental responsibility starts from within. We provide our employees with the necessary training and resources to encourage environmentally friendly practices both at work and in their personal lives.
- 7. Product Innovation:** Milan Auto encourages product design that emphasizes eco-friendliness and sustainability. We explore opportunities to develop dowel pins with reduced environmental impact, without compromising on performance and safety.
- 8. Stakeholder Collaboration:** We actively engage with our stakeholders, including customers, suppliers, and the local community, to promote environmental awareness and sustainable practices. We encourage open communication and collaboration to address environmental challenges collectively.

9. Continuous Improvement: We are committed to regularly reviewing and improving our environmental performance. By setting measurable goals and targets, we continuously strive to raise our standards and make a positive impact on the environment.
10. Public Advocacy: Milan Auto actively supports and advocates for environmental initiatives that align with our values. We contribute to the broader effort to address global environmental challenges and promote a sustainable future.

This Environmental Friendly Policy is an integral part of our corporate philosophy and is communicated to all employees, suppliers, customers, and stakeholders. Together, we can create a greener, more sustainable world.
